

Pranav Pramod

Morris County School of Technology | pranav.pramod26@proton.me

Professional Summary

Aspiring innovator with a passion for developing impactful solutions through software engineering and design. Eager to apply my 4+ years of experience in programming, problem-solving, and teamwork while continuously learning and growing in the industry. Committed to harnessing technology to create meaningful change and contribute to groundbreaking projects.

Education

- Institute: Morris County School of Technology — **September 2023–Present**
- Area of Study: Computer & Information Sciences
- Dual Enrollment with Fairleigh Dickinson University for Computer Science
- Taking honors courses: Calculus, English, History, Spanish, Physics, Economics, and Computer Science.
- AP Computer Science Principles (Score: 4)

Skills

- Proficient in programming languages: Java, Python, JavaScript, C, C++, Rust, SQL
- Proficient in frontend technologies: HTML5, CSS3, React, React Native, TailwindCSS, Bootstrap
- Attained skills in cybersecurity skills: Forensics, OSINT, Web Security, Binary Exploitation, Cryptography
- Proficient in tools and services: Git, Unix CLI, Microsoft 365
- Soft skills: Dependable, collaborative, resourceful, leadership, logical-thinking

Experience

- Venatio — NASA App Development Challenge (National Finalist) — **October 2024**
 - Co-developed a multi-platform application visualizing the Artemis II lunar mission
 - Led accessibility-focused interface design and intuitive simulation design, prioritizing scalability and clarity for both novice and advanced users.
 - Selected as a national finalist in the NASA App Development Challenge.
 - Live demo: venatio.app
- Cryptonite — Garden State CTF (State Finalists) — **February 2026**
 - Competed in a CTF (Capture the Flag) competition, hosted for High Schools around NJ.
 - Performed Linux command line operations and utilized a suite of cybersecurity tools, such as Wireshark and Cyberchef, to solve CTFs involving Forensics, OSINT, etc.
 - Selected as a state finalist for the Garden State CTF.
- PureAir — Lead Web Developer (Nonprofit) — **September 2024–Present**
 - Led the design and development of a responsive educational website addressing the health impacts of vaping and smoking.
 - Translated organizational goals into a scalable web presence through close collaboration with nonprofit leadership.
 - Ensured cross-platform compatibility and accessibility to maximize outreach and engagement.
- OpenDoor — Empower Hacks 2.0 Hackathon — **July 2024**
 - Built a full-stack platform supporting English communication skills for first-generation and low-income students

Pranav Pramod

Morris County School of Technology | pranav.pramod26@proton.me

- Architected a personalized and accessible user experience emphasizing usability, inclusivity, and progressive learning workflows.
- Built as a full-stack web application with a modern component-based frontend and a Python-backed service layer.
- Ranked 17th out of 1,897 participants
- Low-Level Audio & Video Engine — **June 2025**
 - Engineered a low-level audio playback system in C, interfacing directly with system libraries to support file loading, playback control, and seeking.
 - Developed a terminal-based video rendering engine utilizing ASCII frame sequencing to simulate animated visual output.
 - Gained hands-on experience with memory management, system-level I/O, and performance constraints.
- Eduflash — Empower Hacks 3.0 Hackathon — **August 2025**
 - Developed a global educational platform enabling educators to create, curate, and share free learning resources.
 - Designed the system to support multilingual access and usability in communities affected by digital inequity.
 - Focused on lowering barriers to educational access for underserved populations worldwide.
 - Winning team out of 400+ participants
- Teddy Bear Clinic — Nonprofit Web Platform — **November 2025–Present**
 - Built an interactive website aimed at reducing children’s anxiety surrounding healthcare and emergency services.
 - Implemented pages for program listings, events, donations, and chapter onboarding to support growth and outreach.
 - Delivered a responsive and approachable interface tailored to the audience.

Memberships & Leadership

- Co-Founder — Hack Club Chapter — **January 2026–Present**
 - Co-founded and helped lead a local chapter of Hack Club, a global nonprofit supporting project-based computer science education.
 - Organized collaborative coding sessions and supported peers in building technical projects.
- Treasurer — Computer Bytes (4-H Club) — **September 2025–Present**
 - Managed club finances and assisted with organizational planning for a 4-H computer science club serving students in grades 4–13.
 - Supported instructional activities introducing programming fundamentals to younger students.
- Student Ambassador — Computer & Information Sciences Academy — **August 2025–Present**
 - Represented the academy to prospective students, families, and external partners.
 - Assisted with outreach initiatives and supported collaboration with industry and community stakeholders.

Pranav Pramod

Morris County School of Technology | pranav.pramod26@proton.me

- Assistant Instructor — Master Kang’s Miracles Taekwondo — **2023–Present**
 - Assisted instructors in teaching students across age groups, supporting both technical skill development and classroom discipline.
 - Contributed to a structured learning environment emphasizing confidence, focus, and personal growth.
- National Technical Honor Society Member — Morris County School of Technology — **March 26–Present**
 -
- Member — SkillsUSA — **October 2024–Present**
 - Participated in a national career and technical student organization focused on workforce development and technical skill building.
- Member — Technology Student Association (TSA) — **October 2025–Present**
 - Engaged in STEM-focused competitive events, leadership development activities, and community service initiatives.
- Programming Subteam Member — FIRST Robotics Competition (FRC) — **October 2023 & October 2025**
 - Contributed to the programming subteam responsible for robot software development for the 2024 and 2026 FRC seasons.
 - Collaborated with teammates to prepare software for competition environments.
- Congressional App Challenge — Alum — **October 2025**
 - Recognized as a Congressional App Challenge alum for completing and submitting an original software application.
 - Member of a nationwide network of student developers representing their U.S. Congressional Districts through technology and civic innovation.

Recognitions

- President's Volunteer Service Award Gold — **2024**
 - Awarded to individuals with 250+ hours of impactful community service.
- Certificate of Special Congressional Recognition — Rep. Mikie Sherrill — **November 2025**
 - Awarded in special recognition of participation in the Congressional App Challenge, a national STEM competition for high school students.
- 8-time High Honor Roll student — **September 2023–Present**
- Second Dan Black belt in Taekwondo: Official worldwide Taekwondo black belt — **December 2025**
 - Achieved internationally recognized rank; active member of the leadership and assistant instructor team.
